

***“Stop the attacks on everyday people.
Tax the billionaires!
NO on C! NO on D!”***

-Chris Daly, former San Francisco Supervisor

Wall Street and the big banks caused the ongoing economic crisis, not city workers.

Now the downtown bigwigs and their lapdog politicians are trying to blame the victims, and make workers pay for their greed. The assault on city workers is part of the attack on working people everywhere.

Those who think we should concede many of our hard-fought rights to appear “reasonable” are sadly mistaken. That is like putting a little blood in the water, and hoping that the sharks will be satisfied. When the sharks taste blood, they just get hungry for more.

Stand Up and Fight Back.

Say NO to Wall Street and the big banks.

***Vote No on C! Vote No on D!
Tax the Rich!***
