

Frank J. Vega Publisher and CEO

June 28, 2005

To All Exempt Staff:

I don't need to tell any of you how important it is that the information you receive in this packet and during your session remains confidential. We've entered a critical phase in our labor negotiations, and now is not the time to be loose with information. Your safety and the safety of your fellow employees could be jeopardized if this information becomes public.

As you are all aware, we have been working with many of the unions since January to resolve a number of issues which stand in our way of becoming the successful, profitable multimedia organization we must become. As I've discussed in prior communications, we have achieved successful outcomes with several of our unions. But we also have to prepare for the possibility that the leaders of other unions will choose to take their membership out on strike. That's their decision, but we will publish - no matter what.

In a strike situation, your safety and that of your fellow employees is of paramount concern to us. We have a top-actic security company working with us to ensure your safety to the best of our ability. Plant are in place to perform a quick and efficient clear-out of on-site represented employees whose unions call a strike. Plant are also in place to activate the telephone trees of all departments. And everyone should know at this time where they are to report for duty in the event of a labor action. If you do not know where you are to report for duty on Day 1, please talk with your manager immediately.

One way me intend to make sure our employees are safe is through the use of shuttle buses to enter and exit the building. Included with this letter are the locations of the parking lots where you will need to go to in the event of a labor action. Upon arriving at the parking lot, you will board a bus to take you to your work location. At that time, a schedule will be provided to you indicating pick-up and drop-off times for the shuttles. Under no circumstances will you be permitted to enter or exit your work location except on one of the buses. This policy will go into effect as soon as a strike is called and will stay in effect until it is deamed no longer necessary.

Also included in this letter is information on what items ; ou should have on hand prior to any labor notion. Make it a point to think about other items you might seed – prescription medicine, for example. Do not worry about sleeping quarters or food. We have extensive plans in place to onsure our workforce's needs are more than adequately met.

I don't want to sound too ominous a tone, but this is serious stuff. We intend to publish and distribute The Chronicle no matter what. We intend to protect our employees and facilities. No matter what. And we intend to position this company to meet the many challenges facing or big matter what. Thank you is proved the protection of th

### Badge Requirements for Exempt Workers

Effective upon receipt of their new badge, all exempt workers are required to display their badge in the Chronicle-provided lanyard. The lanyard must be worn around the neck at all times. The only exception on this display requirement relates to production or circulation employees working on equipment where wearing such a lanyard would pose a hazard. For these employees only, the lanyard must be worn upon entering and exiting a Chronicle building and, in the case of a labor action, upon entering and existing a Chronicle bus taking employees to and from a Chronicle building. Aside from these times, the production employees are permitted to wear their badge on their right side, attached to a belt book.

#### Personal Items Checklist

Below is a list of suggested personal items you should have on site at least one week before a work stoppage. Employees aC901 Mission Street should see their manager if they need to store items. Each plant will have a designated location for personal items if you do not have a secure location. See your plant director for additional information.

### All Employees Working During a Work Stoppage:

Altern clock
Sleeping mask (for eyes)
Ent plugs
Personal toiletries (soap, deodorant, hair care products, toothbrush, toothpaste, hair brush, hair dryer, shaver, etc.)
Any medications you require
Shower shoes

To wels Change of clothes

Ex 18 pair of shoes

Clothes to sleep in

Ce I phone and charger

Something to do on breaks- books, cards, laptops, iPod or CD player

Employees Working in the Plants During a Work Stoppage Should Also Have:

Company issued steel toed shees Work clothes\*

Please note: For your health and safety - and the health and safety of all other workers - no alcoholic beverages of any kind will be allowed at any Chronicle facilities at any time.

<sup>\*</sup>Please keep in mind that you will get ink and paper on your clothing. Additionally, loose clothing and shorts are dangerous, so plan on sleeves rolled tightly or buttoned and shirts tucked in. Jeans and tee shirts work fine, but keep in mind white tee shirts will get dir y quickly.

# Tips for Crossing a Picket Line

- Carry a cell phone when you leave for work.
- When leaving home for work, start preparing yourself mentally for being stopped at the
  picket line.
- 3. Watch to see if you are being followed on the road. If you are, try to get the license plate number and a description of the driver and the vehicle. Call 9-1-1 or pull in at a police or fire station if there is one nearby. Know these locations along your route.

Finally, as soon as you can, report the incident to the Incident Command Center ("ICC") at (415) 764-2855. For your safety, the telephone number of the ICC may be changed from time to time, but you will be advised of that change accordingly.

 During a work stoppage, you will not be allowed to park at Chronicle facility parking lots. You will, however, be provided with addresses of off-site parking lots where buses will transport you to your destination.

Try to approach the entrances to these parking lots in such a way that you will be making a right turn in and won't have to block traffic. Just in case there are picketers at these lots, in advance of your arrival make sure that your vehicle doors are locked and your windows up. Also, wear your scathelt and use your turn signals.

- As you approach, watch for directions from law enforcement or security officer-
- Stop if there is a picket line and ascers the situation. If you determine that it is not safe to
  cross the picket line, drive away and call the Incident Command Center at (415) 7642855.
- Drive very slowly as you approach and cross the line. Be prepared to stop quickly if a
  picketer steps in front of you to try to get your vehicle to touch him.
- Do not converse with picketers
- Do not shoul faunts or profunities at picketers, no matter what they say to you. To not engage in name calling or make obscene gestures.
- 10. Remain focused and star only white pro-cedling with caution
- 11. Whether your car is parked at home or in a designated parking lot, before entering your car always check around it for nails or other items that can cause tire punctures
- Report any threats against yourself or your family, to the local police (see enclosed list) and the Incident Command Center at (115) 764-2855

# Bail Assistance Procedures

If you are arrested or detained by law enforcement personnel, and that arrest or detention is as a result of you providing services to The San Francisco Chronicle during a work stoppage, please follow the procedures outlined below.

- If you are arrested or detained, do not panic, resist or argue. Just go peacefully. It is not
  unusual for law enforcement officers to round up an entire group (including picketers and
  others in the immediate vicinity), and then sort things out later.
- After you are transported to the booking facility and when it is your time to be processed in, tell
  the law enforcement officers, "I am being bailed out." In some facilities that information
  could impact how you are processed in, and where you are allowed to wait
- As soon as you are authorized to make a telephone call, immediately call on of the following outpers:

Bail Assistance Hotline at (415) 512-2250; Incident Command Center at (415) 764-2855; or John Anthony of Security at (831) 240-1054.

You will be asked:

Your full name;

Whether you are an employee, temporary worker, or vendor;

Your job title or work assignment;

Your date of birth:

The arresting agency (police, sheriff, etc.); The county or city in which you are being held,

The booking number;

The charge;

The bail amount, and

Other information specific to you, if asked.

- Once ICC has the necessary information and has verified your eligibility for bail assistance,
   our licensed bond firm will be given authorization, and will immediately start working on your
   release.
- ICC will then contact a Chronicle manager who will go to the facility where you are being held.
   This manager will provide moral support and will accompany you following your release.
- Finally, you will be advised by the bond firm where you have to go immediately after being released.
- Please note that costs incurred in providing buil assistance arising out of your providing services for The Chronicle during a work stoppage will be burne by The Chronicle. However, if you incur miscellaneous accordated expenses, please have all tracipts and adjust there for seindance around.

The bond from will execute have sufficiented agency records to determine if there are no construction, we say for and married to a construction of the construction of

### Vacation Policy for Exempt Employees

In the event of a labor action, all exempt employees are expected to report to work as quickly as possible. It is understood that some employees may be on vacation or have a vacation planned, and The Chronicle is committed to reimbursing the employee for all reasonable costs associated with shortening or canceling the vacation to return to work. We will require documentation of such expenses, and reimbursement will be provided upon management approval and upon completion of an expense report.

If you are going on vacation after July 1, you should leave contact information with your manager.

### Frequently Asked Questions Exempt Meetings

- Q. Why do I need to have personal items on hand? And how many days' supply should I have?
- A. Depending on the timing of a labor action, it may be necessary for you to stay an evening in order to do your Day One duties. In general, you should have supplies for two days. Some employees, primarily those working in the plants, should plan to have supplies for three days.
- Q. How many hours per day am Lexpected to be at work?
- A. For the first couple of weeks, most employees should expect to be working as much as 12 hours a day, six days a week. The actual amount of time may be more or less than that, depending on your job assignment during the labor action and the number of labor unions taking part in a labor action.
- Q. What arrangements have been made for food?
- A. We have secured the services of a company which will provide meals at each of the three main facilities the two plants (Union City and City) and the downtown building Breakfast, lunch and dinner will be provided and those working late night hours will have a variety of food to choose from Hours and locations will be communicated to you at the time.
- Q. What arrangements have been made for lodging?
- A. Cots and bedding for all employees will be brought in. At the two plants, sleeping trailers will be on-site. In the downtown building, there will be a few areas dedicated for sleeping, although some people may prefer to bring the cot and redding to their office. Ideally the need to sleep in buildings will be limited to the jirst days of a labor action, though circumstances and safety considerations will dictate the duration.
- Q. What if there is an emergency and my family is unable to reach me on my cell phone or land line?
- 4 Con should provide your family members with the number for the Incident Command Center 415-764-2855 for you in emergencies. Personnel staffing the Center will work to contact you immediately. It is important that your family members understand that this number should be used only in the case of an emergency

### Frequently Asked Questions Exempt Meetings

- Q. If there is an emergency and I need to leave the building, how will I be able to do that?
- A In the case of an emergency, you should contact the Incident Command Center 415-764-2855 to make arrangements for security personnel to assist you in exiting the building. As buses will be running at regular intervals 24 hours a day, it is likely that you will be able to exit on one of the scheduled runs. However, if necessarily, security will ensure your safe exit at an unscheduled time.

#### What is the schedule for the buses?

- That is being finalized, but both Union City and San Francisco will be served with one bus 24 hours a day and supplemental buses during peak periods. When the schedule is finalized, that information will be provided to you.
- Q. You've given me the information on where to park my car to get a bus into a Chronicle facility. I take public transportation. Where do I get the bus?
- A For downtown and City plant employees, you will get the bus at the Embarcadero BART station. The current plan is to run the buses hourly. When the schedule is finalized, that information will be provided to you. For Union City employees, you will get the bus at the Union City BART station. When the schedule is finalized, that information will be provided to you.
- Q. What is the process for getting a vendor into the building?
- A From time to time, it may be necessary for vendors to enter buildings on an unscheduled, ad hoc basis to perform repairs, service equipment or fulfill other critical functions. Should such a vendor require entry into one of our facilities, the manager requesting such services should get the name of the individual(s) requiring entry together with the vendor's vehicle make, model and plate number. After obtaining this information, the manager should then contact the Incident Command Center 415-764-2855 to obtain instructions for entry. The manager will then relay instructions to the vendor and coordinate with security to ensure that the appropriate person or persons are provided entry. Vendors should be told not to attempt to enter Chronicle facilities or lots until they have received specific instructions for doing so
- Q. What do I tell represented workers about the new badge?
- A If asked, you should tell them that new badges for represented employees are also being created and will be distributed in the coming weeks depending on the status of their union's contract

- Q. What is my role during a labor action?
- A. Your manager will work with you to clarify your specific role or roles during a labor action. If this has not yet happened or if you are still unclear about your role, it is essential that you communicate with your manager immediately.

## Plan Emergency Notification- Circulation

### Objective

Create quick, reliable notification system to inform all Circulation employees of an emergency, and the changes in their work conditions, locations, and assignments as a result of that emergency. Three different types of notification will create redundancy, reliability, and knowledge of who may be unavailable or uninformed.

## Auxance Activities (Evergreen Activities)

- Roles and emergency assignments for all Circulation Management
- Disaster Recovery Mailbox assigning responsibility for maintenance and updates
- Calling tree ignited by Vice President that will result in everyone receiving a personal call that both informs the 'called' of events/assignments and informs the 'caller' of whether or not a message was received
- Calling distribution list that includes all Circulation Management office numbers that will receive a voice mail message from the Circulation Safety Manager offering additional detail
- Have on hand updated lists of all Circulation Management staff office, home and cell phone numbers

# Notice Given to Vice President-"Top down" scenario

- Vice President notifies one Director on tree
- 'First' Director notifies Directors indicated by arrow
- Directors notify Regional/Managers
- Regional/Managers notify Supervisors
- 5. Supervisors notify Employees, start Carrier and Dealer Calling Trees
- Implementation of security plans

# field becomes aware of emergency-"Bottom Up" scenario

- Supervisor/Field notify one Regional/Manager/Director
- Regional/Manager/Director calls Vice President
- 3. Vice President notifies one Director
- 4. 'Pirst' Director notify Directors indicated by arrow
- Directors notify Regional/Manager
- Regional/Managers notify Supervisors
- 7. Supervisors notify Employees, start Carrier and Dealer Calling Trees
- 8. Implementation of security plans
