

# THINK Globally ACT Locally

Like this performance?  
Think the problem is 6,000 miles away?  
*Think again...*

Ike Solem has been on *Free Radio Santa Cruz* recently exposing **City Council collusion with Camp, Dresser, & McKee**, a large multi-national with **profiteering expeditions in Afghanistan and Iraq**.

-No wonder they're all smiling-

Want to know *what else* your City Council has been up to?

- Supporting a nighttime sleeping ban that in other cities has been ruled a *violation* of the 8<sup>th</sup> amendment and a form of “cruel and unusual punishment”

THEIR REPLY...

The Santa Cruz Ordinance is *different*...

HOW?

**WE DON'T KNOW!**

- **Vice-Mayor Coonerty refuses** to secure a release of City Attorney John Barisone's **secret memo on the issue**, presented to City Council over a year ago and still **concealed from the public**, while an expensive lawsuit is brewing

OR HOW ABOUT...

- City Council's **disinterest in racial profiling** and **selective enforcement** and their kneejerk **support for the SCPD** and piling on Councilmember Madrigal for even suggesting such things may have happened last year?
- Mayor Reilly's **refusal** to meet with *Homies for the Homeless* around unconstitutional arrests under the Sleeping Ban

**LET'S STOP PRETENDING** we're all Progressives watching a Fun Mime Troupe Show about activities 6000 miles away that we all condemn.

**INSTEAD RAISE ISSUES** for the politicians and their political pals who show up!
