## **Environmental Heroes of the Pacific Rim:** How Grassroots Leaders in Russia and China Are Making a Difference

Russia is home to 20% of the world's forest and freshwater.

China is one of the world's largest consumers and the number 1 contributor of CO2 emissions.

Together, they make up a third of the Pacific Rim

*What does this scale of natural resources and consumption mean for the world's environmental future?  
And how can Bay Area residents get involved?*

Learn how local community leaders are addressing environmental issues in China and Russia, and how their successes are resonating throughout the world.
