

Direct Action Training!

Continued wars, housing foreclosures, and ecological crises have proven that neither docile street marches nor electoral campaigns will solve the problems plaguing our daily lives. We can only have leverage over our rulers by showing our own power, and we must back our demands by demonstrating that we can interfere with their business as effectively as they interfere with our lives.

Santa Cruz! People are gathering for an exciting chance to develop skills and social bonds for direct action of all kinds. This will be an opportunity for people to deepen their local connections and strategize for a variety of campaigns, including this summer's Democratic and Republican National Conventions.

Workshops include: Medic Training, Affinity Groups, Self-Defense, Knowing your Rights, and Tricks n Tools of Direct Action. We will also be practicing our new found skills on Sunday, location TBA.

Saturday, May 10

1:00-7:00 PM

807 Laurel St. (Zami Co-Op)
