

Sound the Alarm: We are Being Robbed!

Cindy Sheehan for Congress demands that NOT ONE of our tax dollars be used to bail out Wall Street corporate pirates.

Cindy Sheehan for Congress demands a personal bottom-up bail out plan. The Bush crime family plan would cost each and every American (regardless of political party) over 2300.00 to help rescue an irresponsible and greedy

industry that is failing because of unregulated speculation and predatory lending and trading practices.

This is our money, people, and if we don't speak up loudly to have our voices heard, we are participating in the biggest robbery in American history. We may as well be driving the get-away car. A crime of historic proportions is about to be perpetrated that you know will go unpunished by the complicit Democrats. The evidence is clear: this incestuous corporate/government co-operation throws it in our face once again that the establishment elite are in it together---against We the People. Nancy Pelosi (D-SF) is not the only Congress member that receives money from these industries or is invested in these same industries, in a clear conflict of interest!

It is not time for a Bi-partisan solution since we know the two party monopoly is only there to protect itself and its cronies. NO, the time is now for a NON-partisan people's revolution to get to the root of the problem, not throw OUR money at it.

Cindy for Congress is calling for a demonstration tomorrow (9/25) in San Francisco at in front of the Federal Reserve Bank
Where: 101 Market St (Corner of Market and Spear)
When: 4pm to ?

Bring your past-due mortgage bills.
Bring your past-due rent or utility bills.
Bring your student loan and medical bills.
Bring your credit card bills with usurious interest rates and immoral fee structures.

Bring YOUR BILLS to send to Nancy Pelosi in DC so we can demand that WE THE PEOPLE be bailed out. No "stimulous" plans, but a bottom up, effective approach. (See: Cindy Sheehan for Congress and a Progressive Response to the Economic Crisis).

Bring your Monopoly or other play money that we can burn to symbolize our government's burning of its fiat currency in wholly inappropriate response to the economy and to show our opposition to the apparent onset of a hyper-inflation cycle.

Above all, bring your righteous and very appropriate anger.

What this government is planning now is the final collapse of our socio-economic system and WE CANNOT ALLOW THEM TO GET AWAY WITH IT this time!

This is the beginning of WE THE PEOPLE finally standing up and saying:

"Hell, no."
"Not with my money."
"Not with my child's future."

"NOT WITH MY CONSENT!"

Please call the campaign office for more info: 415-621-5027

Cindy for Congress is also developing an online campaign to send our personal bail out bills to Congress. Stay tuned for more info!
