

Protest AIPAC in San Francisco

On December 9th the political lobby AIPAC (American Israel Public Affairs Committee) will host an opulent dinner for its guests (members and invited politicians), even as it promotes policies that promote malnutrition for the children of Gaza and sending of billions of dollars of US aid to Israel while critical programs here in the US go unfunded.

Say NO to a Lobby that desperately seeks to keep the status quo while Millions of Americans Demand Change.

A Palestinian woman laments the loss of her home that was demolished by the Israeli military. Since 1967 the Israeli military has demolished 18,000 Palestinian homes. Enough! We oppose US military aid that supports an illegal occupation of Palestinian land. We must build homes for our communities here, not export violence abroad.

AIPAC supports endless conflict in the Middle East by lobbying for billions of dollars in US Military Aid to Israel and continued Occupation of Palestinian Land. AIPAC works to insure that Israel is provided with military aid from US taxpayers, at the cost of at least \$3 billion each and every year. This aid is used to destroy Palestinian homes and farms. It is used to perpetuate a 40 year occupation of the West Bank and Gaza. We stand on the side of Palestinians and Israelis who are working for real peace based on justice and human rights for everyone.

AIPAC supports US military confrontation with Iran, and at the same time supports Israel's massive nuclear weapons arsenal. AIPAC was a key backer of a resolution before Congress that effectively called for a military blockade of Iran. It was defeated through massive public opposition, but they will try again. AIPAC only promotes "diplomacy" that does not discuss Israel's dangerous nuclear weapons. We want global nuclear disarmament. We want real diplomacy, not another war.

AIPAC regularly provides a platform for Right-wing extremists to foment their anti-Muslim/Arab racism and their call to unbridled militarism. AIPAC has formed a relationship with Rev. Hagee's hateful fundamentalist group that opposes any compromise with Palestinians. AIPAC regularly features speakers like Daniel Pipes, who is a leader in efforts to demonize Arab and Muslim-Americans.
