

Construction around Main Parade Exceeds Historic Structures' Area and Mass

1. View of Hotel from in Front of Park Service Visitor Center across Main Parade.

OVER

## **2. View of CAMP From in Front of Park Service Visitors Center**

The museum is pushed more forward and downhill than the present Bowling Center. This makes the front of CAMP that the public will see from the NPS Center or Disney much larger, taller, and intrusive than the facade of the Bowling Center appears. A provision that CAMP will not be higher than the eaves of the theater is confusing due to 18 feet elevation difference between Sheridan, at the front of CAMP, and Moraga, at the Theater's entrance.

### **CONCLUSION: THE SCALE OF PROPOSED NEW CONSTRUCTION AROUND MAIN PARADE EXCEEDS THAT OF EXISTING HISTORIC BUILDINGS.**

THIS MASS OF UNNECESSARY, INTRUSIVE AND INCOMPATIBLE NEW CONSTRUCTION IN A NATIONAL PARK **SEVERELY IMPAIRS THE PUBLIC'S ABILITY TO APPRECIATE AND UNDERSTAND THE HISTORIC LANDMARK.** AS A RESULT, THE STATUS AND PROTECTION OF THE PRESIDIO AS PART OF A NATIONAL PARK AND AS A NATIONAL HISTORIC LANDMARK DISTRICT WOULD **DELIBERATELY BE PLACED AT RISK.** IT IS UNLAWFUL FOR THE TRUST TO DO THIS.

**350,000 VISITORS TO DISNEY AND ALL THE PARK VISITORS TO THE PARK SERVICE VISITOR CENTER WOULD BE FORCED TO WALK IN FRONT OF THE CONTEMPORARY MUSEUM OR THE HOTEL ON THE WAY TO VIEW THE HERITAGE CENTER PLANNED IN THE OFFICERS CLUB. THEIR EXPERIENCE AND UNDERSTANDING OF A REMARKABLE HISTORIC SETTING WOULD BE RUINED.**
