

Sleep is Necessity Not a Crime

Santa Cruz Has No Shelter for 90% of its Homeless Tonight
then, Why...

...why does the City Attorney spend thousands of dollars to harass & terrorize two non-violent homeless musicians?

...why does a Santa Cruz court threaten them with 5 days in jail for each night they sleep downtown?

...why does the Downtown Association support new laws that make three acts of sleeping a \$1000/6 months in jail crime?

...why are police officers, rangers, and other city employees destroying homeless property, selectively enforcing laws, and trying to drive the poor away?
