# Mariposa & the Saint

## **From solitary confinement, a play through letters**

---

In 2012, Mariposa was sentenced to fifteen months in solitary confinement. In 2015 she is still in a special confinement unit. Through letters with longtime friend Julia Steele Allen who met her through a California Coalition for Women Prisoners visiting team, Mariposa brings her experience to the stage.

Join CCWP for *TWO BENEFIT* performances of *Mariposa & the Saint* and a conversation about the shocking conditions in California's women's prisons and what can be done to change them.
