Officer-involved killings

This timeline is based on convivial research and numerous investigative and documentation projects, of-ten archived through public contestations following an act of state violence and including timelines col-lectively generated as part of the rolling People's Movement Assembly (PMA) in 2014 and a communi-ty timeline workshop with families from San Jose, Stockton, Hayward, and San Francisco in March of 2018. Sources include the work of families and the organized San Jose community. We also draw on the doc-umentation efforts of D. Brian Burghart's Fatal Encounters, Stolen Lives Project, and various local projects and sources, including Justice for Josiah. -Center for Convivial Research and Autonomy (CCRA), 12 May 2018.
