

SURVIVING IN YOUR VEHICLE... BUT HAVING HARASSMENT PROBLEMS?

Are you being pressured or threatened to move your vehicle more frequently than the legal resting period of 72 hours?

Are hostile housed "neighbors" suggesting you don't have a right to park on the public streets?

Is your sleep being awakened by rude pounding, shouting, and banging in the dead of night?

Is your family or loved one being made to feel unwelcome in a neighborhood in which you've parked for less than 72 hours?
