PARENTS, GRANDPARENTS  
and STUDENTS**

## **COUNTER-RECRUITING**

Part of the NO CHILD LEFT BEHIND legislation makes it necessary for school administrators to turn over the names of HIGH SCHOOL STUDENTS to The US Military. Students are also being recruited through video games, which track and then contact very young potential recruits, Army interactive vans which visit our campuses and let students play simulated war games, and a plethora of high market value advertising campaigns.....all designed to get students involved in The Military. These recruiting techniques disproportionately target low-income and minority communities.

## **WE CAN FIGHT BACK**

Court decisions have granted those of us who have an alternative view to have equal access to our students. CENTRAL COMMITTEE FOR CONSCIENTIOUS OBJECTION and it's student wing MILITARY OUT OF OUR SCHOOLS have prepared materials to help us offer an alternative view.
